

06 Technical Specifications

Powertrain / Motor / Battery

Powertrain	
Motor type	Permanent magnet motor
Maximum power	120 kW / 163 PS
Maximum torque	395 Nm
0-to-100 km/h acceleration	9.54 s
80-to-120 km/h acceleration	7.4 s
Cold-start temperature	-30°C

Battery	
Total system output (kW)	135 kW
Power output (kW) battery	40 kW
Power output (kW) fuel cell stack	95 kW
Stack density (kW/l)	3.1

Performance	
Maximum speed	111 mph
CO ₂ combined (g/km)	0 g/km
Driving range	414 miles (WLTP) / 466 miles (NEDC)

Aerodynamics	
Drag coefficient	0.329

Exterior Dimensions (mm)

Overall length	4,670
Overall width	1,860
Overall height	1,630/ 1640 with roof rack
Wheelbase	2,790
Ground clearance	140
Front overhang	960
Rear overhang	920

Interior Dimensions (mm)

	First row	Second row
Head room	1,001	965
Leg room	1,047	936

Capacities (litres)

Overall Fuel tank capacity	156.6 (3 tanks, each 52.2)
Luggage (VDA) (litres)	Minimum 461
	Maximum 1,466

Weights (kg)**

Curb weight	1,814 - 1.873
Gross vehicle weight	2,340

[NOTE – Specification may vary by market / region]
